2020 BMW 4-Series Diminished Value Case Study

Tuesday, January 22, 2024

Accidents happen, and they can affect more than just the look of your car. If your 2020 BMW 4-Series was in a crash, its value might have dropped, even after repairs. This loss in value is called **diminished value**, and it's an important factor many car owners don't know about. Let's explore how an accident can impact your car's worth and what you can do about it.

What is Diminished Value?

After an accident, a car that's been fixed still won't sell for as much as one that's never been in a crash. That's where diminished value comes in – it's the difference in your

Appraiser Blog

car's market value before and after the accident. At [Diminished Value of Georgia](#), we focus on figuring out this exact loss.

Was Your 2020 BMW 4-Series in an Accident?

Picture this: a regular day turned chaotic as your 2020 BMW 4-Series meets an unexpected collision. What many may not realize is that even after meticulous repairs, the vehicle could suffer from diminished value, translating to a potential loss of \$6,960 or more in market value.

| Diminished Value Calculator | |
|-----------------------------|----------------|
| Before Accident Cash Value | \$34,800 |
| After Accident Cash Value | \$27,840 |
| Diminished Value | \$6,960 |

Regardless of fault, the reality is that your vehicle's value has taken a hit. Wondering how much it has depreciated due to the collision? We've got your back! Get a **FREE Claim Review** or call **(678) 404-0455** and receive the compensation you deserve.

How Can We Help?
