Top 10 Most Affordable Luxury Cars

Monday, November 14, 2022.

You don't need to spend a fortune on luxury cars. Even if a luxury car starts with a low price, that doesn't mean it can't provide the features you want.

Luxury cars cost more than their non-luxury counterparts, but they're not as pricey as you may think. For example, there are many luxury cars on the market that have a starting price of between \$27,000 and \$39,000. And by no means are these the only options - new luxury car prices vary widely. In fact, the average transaction price for a new car is over \$46,000--and some luxury cars even have a sticker below this number.

Some cars are priced differently than others for a number of reasons. For example, a vehicle may be more popular, include standard features that other cars don't offer, or have a particular size or capability.

Finding the right car can be tough, especially when you have limited funds. We created a list of the least expensive new luxury cars on the market today. Our list includes cars produced by Acura, Audi, BMW, Cadillac, Genesis, Lexus, Mercedes-Benz, and more!
